

## Getting Started To Form a Green & Healthy School

# *Our Pledge*

We, the students, teachers and staff at \_\_\_\_\_  
believe that becoming a *Green & Healthy School* is a desirable goal that assures a  
safer, healthier and cleaner environment for successful learning.

We want to use our school, its grounds and our neighborhood to enhance  
curriculum and increase community awareness and involvement.

Therefore, we have formed a Green & Healthy team and pledge to become a *Green  
& Healthy School*.
